WE LEAD, WE NEVER FOLLOW.

Ours Is A Successful Business

Successful, on the basis of satisfied and gratified customers, who deal with us in increasing numbers daily. Up to the present writing our sales records have leaped far ahead of all expectations. WHY? Because this business is founded along proper lines, that it is capitalized under home control, home management, and our plea for business will always be based on merit.

Particulars on Application

At a meeting of the Village Council, held Wednesday night, it was decided to raise the taxes 100%, in order to supply the money needed to fix up the streets and sidewalks of the village. The Business Tax was placed at \$8.00. Sam English was appointed as Village Constable. The Council is taking the matter up with the Government re the grading of the various roads leading into the town.

The Rev. W. S. Wickenden B. A. will (D. V.) conduct Divine Service in Gregerson Schoolhouse on Sunday next, April 29th at 3 p. m. All are welcome.

Arbor Day will be held on Friday, May 11th.

Miss Thorburn, Milliner, will be at the Pioneer Store, Monday and Tuesday, May 8 and 9.

FOR SALE

Two sets good work harness, \$50.00 Cash takes both sets. Can be seen at the O. K. Livery Barn. Ask H. E. Artriss about them.

Count Von Reventlow says: "We have long expressed the view that German victory and the German monarchy are mutually dependent. Without a German victory the German monarchy will soon cease to exist."

German subs sink several British hospital ships.

British and French troops continue to advance, and they are capturing hundreds of prisoners daily.

Sixty-five vessels were sunk, last week, by mines or subs.

The British are making great progress against the Turks.

Samara has been captured and the Turks forced back 17 miles.

FOR SALE

A big work Ox. An aged Mare, ten hundred lbs. 9 Registered Duroc-Jersey Hogs, choice stuff.

Will sell or trade for breaking. Apply to W. Whitell Sec. 13-33-4. Monitor

Find Strange Tribes

New Primitives Discovered in Siberian Wilds by University Expedition

A remarkable tribe of primitives who live in wigwams, live on meat, and consider reading and writing an accomplishment has been discovered in the forests of Siberia by the Siberian expedition of the University of Pennsylvania Museum.

The first reports concerning this tribe, known as the "Tungus of Northern Siberia," were received from London where the expedition is preparing a complete report of its 700-mile journey from civilization in very low temperatures.

The "Tungus" know nothing of an outside world, says the report, and have no religion, save that they believe in certain good and evil spirits to be propitiated. They are Mongolians, and speak a highly infected tongue, with a philosophy of life which is "certainly much madder than ours," say the experts, and say the report, they live up to this dictum. They are enormous eaters, and are full of jokes.

Don't Submit to Asthma. If you suffer without hope of breaking the "chain" of asthma you will buy another day the purchase of Dr. J. D. Kellogg's Remedy. A trial will drive away all doubt as to its efficiency. The sure relief that comes will convince you more than anything that can be written. What help is so sure, why suffer? This matchless remedy is sold by dealers everywhere.

"Some men have no hearts," said the trouper, "I've been a-feltin' that I have! I am so dead broke that I have to sleep outdoors."

" Didn't that fetch him?" asked the other.

"Naw. He tol' me he was a-doin' the same thing, and had to pay the doctor for tellin' him to do it."

Export of Cotton Products Restricted

The Dominion government has issued an order prohibiting the exportation of all manufactures and products of cotton, dressed and undressed furs to foreign destinations in Europe, Spain, Italy, Russia, France, and America.

Cotton wadding remains prohibited to all foreign destinations.

"Mica Ban" is being manufactured by some United States factories. It is used for concrete facing work to produce rock effects.

CHILDHOOD AILMENTS

Constipation and indigestion; colic, worms, colds and simple fevers, and all the other minor ills of childhood can be promptly cured by Baby's Own Tablets. Through their action in regulating the stomach and intestines, from the highest to the lowest—in a horn spy, regarding espionage as one of the prime duties of citizenship. When the Kaiser travelled abroad he had to keep his eyes open and report a common saw, just as though he were a common water or bather.

What is Germanism?

Germanism is a great criminal conspiracy, a sort of black Hand or Camorra, all of whose members work secretly, relentlessly, unscrupulously for a common end—the enslaving of the world (writes Mr. Hebrew Vivian in the New York Tribune). The Kaiser, from the highest to the lowest—in a horn spy, regarding espionage as one of the prime duties of citizenship. When the Kaiser travelled abroad he had to keep his eyes open and report a common saw, just as though he were a common water or bather.

In that remarkable book, "Government and Society in Prussia," by Dr. Dührer, the successor of Treitschke, published on the eve of war, he declared the gospel of Prussian despotism with ruthless candor. The despotic government by decree, will enter a people's home alone. There is no such thing, he said, as the will of the people. Legislatures were only representative of the oligarchs which were in control of the government, and the people's particular might be useful for crushing them could not exercise sovereign power. The temple of the state, in a word, was not the parliament, but the barracks, and the problem of government was not to rule the people, but to rule the army, and to make the army obey. "Who does the army obey?"—London Daily News and Leader.

No man or woman should hobble painfully about because of corns when so much relief is at hand as Holden's Corn Cure.

Uncle Shadrach had held down the job of pumping the organ at the First Presbyterian Church for a score of years, and when a new pastor, a member of the church asked Uncle Shadrach what he thought of the newcomer. "Well, sah," answered Uncle Shadrach, "Ah, doan' wan' to brag, but Ah kin pump my pieces 'n' his kin play,

all day long, like a fiddle."

"From childhood up I had been a tea and coffee drinker and for the past years I had been trying different physicians, but could get only temporary relief. I had given up tea and coffee, help

me and cause such distress that I could hardly breathe at times, also experienced pain and heart palpitation at the time I was so nervous and restless."

"From childhood up I had been a tea and coffee drinker and for the past years I had been trying different physicians, but could get only temporary relief. I had given up tea and coffee, help

me and cause such distress that I could hardly breathe at times, also experienced pain and heart palpitation at the time I was so nervous and restless."

Note and Comment

The following is from the bulletin issued by the Merchants Association of New York, and every reader will find some use for the message it contains.

Kill Flies And Save Lives

Kill at once every fly you can find and burn his body.

Clean up your own premises; see and insist that your neighbors do likewise.

Especially clean "out-of-the-way-places," and every nook.

Flies will not go where there is nothing to eat, and their principal diet is too filthy to mention.

The fly has no equal as a germ "carrier."

Do not wait until the insects begin to pester; anticipate the annoyance.

April, May and June are the best months to conduct an anti-fly campaign.

Kill flies and save lives!

Formaldehyde and sodium salicylate are the two best fly poisons. Both are superior to arsenic. They have their advantages for household use.

They are not a poison to children; they are convenient to handle, their dilutions are simple and they attract the flies. A formalin solution is made by adding 3 teaspoons of formaldehyde to a pint of water. The proper concentration of sodium salicylate may be obtained by dissolving 3 teaspoonsfuls of the pure chemical (a powder) to a pint of water. An ordinary thin drinking glass is filled or partially filled with the solution. A saucer, or small plate, in which is placed a piece of WHITE blotting paper cut the size of the dish, is put bottom upper the glass. The whole is then quickly inverted, a match placed under the edge of the glass, and the container is ready for use. As the solution dries out of the saucer the liquid seal at the edge of the glass is broken and more liquid flows into the lower receptacle.

Thus the parer is always kept moist. Borax is especially valuable around farms and out of doors. One pound of borax to twelve bushels of manure will be found desirable as a poison without injuring its manurial qualities or farm stock. Scatter the borax over the manure and sprinkle with water.

Lye, chloride of lime, or copper sulphate of iron dissolved in water, crude carbolic acid, or any kind of disinfectant may be used in vaults.

Great news! The Paisley shawl—dear old grandmother's shawl—is coming back. What a sensible, serviceable, comfortable wrap it is, to be sure.

Too sensible, one might have feared, to be revived in these degenerate days. Even yet we admit a measure of skepticism.

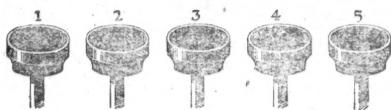

If the dear ladies do redopt the Paisley, they will probably bundle the whole of it around the neck, while their legs are left all but bare nearly up to their knees; or they will carelessly throw it in a sort of rope over the left shoulder and trail one end behind them on the walk.—Orillia Packet.

110-6th, Ave., W., Odd Fellows' Bldg., Calgary, Alta.

The largest convention held in Alberta was the gathering of the school teachers, in Calgary, when nearly fourteen hundred were in attendance, including many trustees. One of the most interesting addresses was delivered by the Minister of Education, Hon. J. R. Boyle.

Mr. Boyle spoke on Secondary Education and said that the people were now taking greater interest in educational facilities, and the cities and towns having recovered from the real estate mania, are now settling down to think how conditions may be improved. The war has changed public opinion, people are now thinking in terms of man-power. He asked the teachers to consider how secondary education could be extended to the 90% of our school population rather than be content with granting such to the 10%, the estimated percentage of young men and women who now pass through our High Schools. Criticising the Teachers' Association Mr. Boyle said he did not know of any 3500 men and women who have such a tremendous power in forming public opinion who exercised their power less. If the teachers of the province set themselves to do it, they could exercise a tremendous influence on public opinion for better Educational Facilities, and put their heads together and decide what is to be done.

In the speaker's opinion the reason so few entered the High Schools was due to the fact that the parents did not consider the sending their children to these Schools a good investment and the teachers could do much toward breaking down this prejudice. It could not be denied that our present High School System is a great advantage to the person securing it but if the public did not believe it would not be better to educate 90% of our young people as they think they should be educated than to educate 10% as we think they should be.

Mr. Boyle believed that when we get our Secondary Education to the point where the people realized that it would assist their children to produce more and to acquire greater earning capacity, and that Secondary Education was as essential as Elementary, then they would realize that the teachers are making the High Schools what they are and that the money they paid their teachers would be well spent.

NOTICETO THE RATEPAYERS OF
THE R. M. OF STEWART
NO. 302

I have been instructed to make seizure on all arrears of taxes and those wishing to save extra expense must pay all arrears at once, to me or to the Sec-Treas.

LYNN WILTSE, Bailiff.

I have now a full range of harness on hand.

Anyone needing Harness or Horse requisites will do well to look over my stock. There is nothing more sure than that the price of Harness will take a big jump, either this month or next, as the result of the abnormal advance in the price of leather and all raw materials needed.

Practically all the large manufacturers have to go to the tanneries to renew contracts this month, and I am told on good authority, that there will be an increase of at least 18c per lb on last contract in Sept.

It is therefore easily seen what a difference this will make on a set of harness.

I, personally, expect to see harness advance 25% this summer.

Now, you all know what my prices were last Spring; they will be practically the same this Spring as long as Stock on hand lasts.

I have a large and varied stock of

Breeching Harness,	Harness, less breeching
Carriage Harness	Hame Straps, Halters
Single Buggy Harness	Breast Straps, Names
Democrat Harness	Brushes, Curry Combs
Collars, Martingales	Sweat Pads, Lines
Snaps and all Harness Hardware	

Owing to the uncertainty of the leather situation, my terms must be Strictly Cash. Please note this and do not ask for time.

Yours,
J. Hamer.

Find Strange Tribes

New Primitives Discovered in Siberian Wilds by University Explorer

A remarkable tribe, known as the "Tungus of Northern Siberia," were received recently from London, where the expedition is preparing its complete report of a 7000 miles journey from civilization in very low temperatures.

The first reports concerning this tribe, known as the "Tungus of Northern Siberia," were received recently from London, where the expedition is preparing its complete report of a 7000 miles journey from civilization in very low temperatures.

The "Tungus" know nothing of an outside world, says the report, and have no religion, save that they believe in the good and evil spirits to be propitiated. They are Mongolians, and speak a highly inflected tongue, with a philosophy of life which is "eat much, laugh much," and, says the report, they live up to this dictum. They are enormous eaters, and are full of jokes.

Don't Submit to Asthma. If you suffer without hope of breaking the chains which bind you do not put off another visit to the famous Dr. Kellogg's Remedy. A trial will drive away all doubt as to its efficiency. The sure relief that comes will convince you more than anything that can be written. When help so sure, why suffer? This matchless remedy is sold by dealers everywhere.

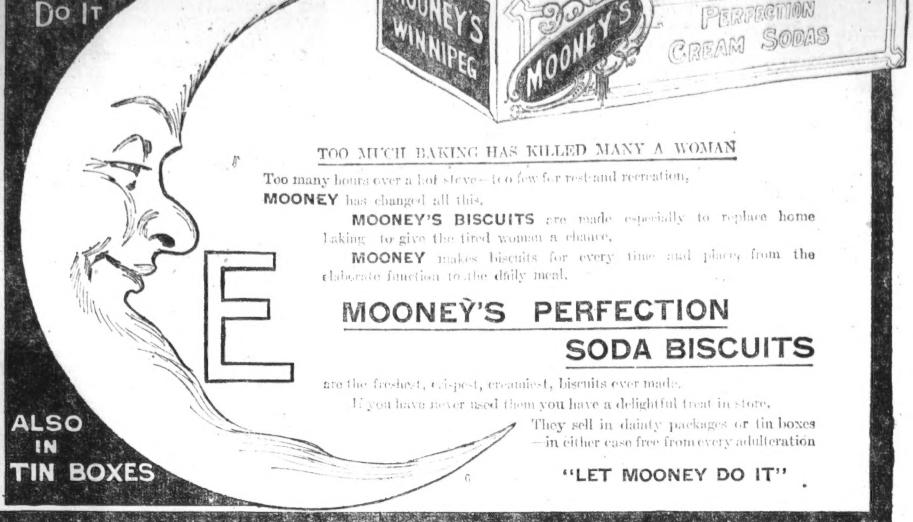

"Some men have no hearts," said the tramp. "I've been a-tellin' that feller I ain't dead broke that I have to sleep outdoors."

"Didnt that fetch him?" asked the other.

"Naw. He tol' me he was a-doin' the same thing, and had to pay the doctor for tellin' him to do it."

LET MOONEY

Do It

TOO MUCH BAKING HAS KILLED MANY A WOMAN

Too many hours over a hot stove—too few for rest and recreation,
MOONEY has changed all this.

MOONEY'S BISCUITS are made especially to replace home baking to give the tired woman a chance.

MOONEY makes biscuits for every time and place from the elaborate function to the daily meal.

MOONEY'S PERFECTION

SODA BISCUITS

are the freshest, crisp, creamiest, biscuits ever made.

If you have never used them you have a delightful treat in store.

They sell in dainty packages or tin boxes
—in either case free from every adulteration

"LET MOONEY DO IT"

Breed, Feed and Care

There are three things that must be considered to build up a herd of cows—feed, water and care. Proper feed, then care. No matter how well bred a cow may be, unless she is properly fed, fed according to her requirements and individuality, she will not do as she should. Then if she is well bred and well fed and not properly cared for, she is still a failure. She must be kept comfortable, quiet and contented. She needs good light, good air, plenty of water and kind treatment. Good cows are not developed by harsh treatment. If she becomes a weakling after a milk stool or fork handle when she is approached, Is it any wonder she is nervous and kicks? If on the contrary she never knows fear and as you sit down to milk her she thinks you are the best calf she ever saw, and you can figure that kind treatment pays in dollars and cents, or from any point of view.

Prairie Market For Lumber
The farmers of the prairies spent little money last year in buildings and improvements, but this will be deterred. Their about cross will almost a failure, and the psychological influence of hard times in the towns affected those farmers who were in a position to build houses and granaries and barns and sheds. The lumber market in the wheat provinces has not been good for two years, but this year's crop will encourage the farmer to make himself and his family and their cattle more comfortable for breeding purposes some of the money that is pouring in.—Vancouver News-Advertiser.

Penelope Did the play have a happy ending? How should I know?

Percival You saw it, didn't you?

Percival Yes, but the hero and the heroine married each other. Judge

On that remarkable book, "Government and the Will of the People," which Dr. Delbrück, the successor of Freud, wrote in 1919, on the eve of the war, he declared the gospel of Russian despotism with ruthless candor. His dismised government by the "will of the people" as a vain ideal, as the will of the people's delegations were only representative of the secretaries which were in control of the party machinery, and thought parliaments might be useful for criticism and control of the secret service power. The temple of the state in Berlin was not the parliament, but the barracks, and the problem of government was not, who elects presidents, but, "What does the army obey?" London Daily News and Leader.

A woman's tea and coffee experience is interesting: "For two weeks at a time I have taken no food but tea and coffee, for sometimes I would faint and eat such delicious food I could hardly breathe at times, also experiencing pain and heart palpitation and all the time I was so nervous and restless."

For children up to 14 had been to tea and coffee drinking for the past 20 years I had been trying different physicians, but could get only temporary relief. Then I read an article telling how some one had been helped and I began to drink Postum and drinking Postum and it seemed so pleasant just to read about good health I decided to try Postum.

"I made the change to Postum and there is a difference in me that I don't feel like a sick person."

As soon as I made the shift to Postum I got rid of my constipation troubles are gone. I am plump, my food digests late, the pressure in the chest and palpitation are all gone, my bowels are regular, have no more stomach trouble and my headaches are gone. I now eat Postum instead of tea and used Postum steadily." Name given by Canadian Postum Co., Windsor, Ont.

Postum comes in two forms:

Postum Cereal—the original form which is well boiled tea and tea packages.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and with cream and sugar, makes a delicious beverage instantly.

Bowl bowls are equally delicious and cost about the same per cup.

"There's a Reason" for Postum—sold by Grocers.

Minard's Liniment Cures Diphtheria.

It is known that there are still at least 6,000 German diphtheria and other diseases. Not the Zepplins, but London. Is it to be doubted that these death-dealing monsters have been guided upon their way by some of these 6,000 or more of enemies within London's huge area, as London newspaper.

Bowl bowls are equally delicious and cost about the same per cup.

"There's a Reason" for Postum—sold by Grocers.

Minard's Liniment Cures Colds, &c.

Four professors of the Euphrates American College, founded at Amman, were horribly tortured by the Turks before being put to death. The hair and moustache of one professor were pulled out by the roots. The nails of another were pulled out by the pliers. Seven-eighths of the students were deported, killed or exiled and the young girls carried away to harems.

Doctor—How do you feel, Colonel, when you have actually killed a man?

Colonel—Oh, not so bad. How do you—Punch.

The Value of Birds in Forests

Birds attain their greatest usefulness in the forests, because the conditions there closely approach the primitive.

Forest trees have their natural insect foes, to which they give food and shelter, and these insects in turn have their natural enemies, among the birds, to which the tree also gives food and shelter. Hence it is evident that the existence of each one of these forms of life is dependent upon the existence of the others. But for the trees the insects would perish, and but for the birds the insects would perish and, follow, the inevitable course of nature to the conclusion of their awful vengeance, but for the trees the world would perish.—The Value of Birds to Man, by James Buckland.

Miller's Worm Powders attack worms in the stomach and intestines at once, and no worm can come in contact with them and live. They also correct the unhealthy conditions in the bowels, and the worm powders encourage worms settling in reactions that are most beneficial to the growth of the child. They have attested their power in hundreds of cases and at all times are thoroughly trustworthy.

Cable Railways For Wounded

An ingenious arrangement is being used by the French in the hilly country of the Vosges, in order to transport their wounded. Cable lines are strung over the steepest portions of the journey and over places where it is impossible to make a road.

Special Red Cross cars or trucks are used on these wire lines, each truck carrying a wounded man and being strong enough to let him lie down in comfort while being transported.

The speed with which a severely wounded soldier can be taken to the base by these cable railways has saved many a French soldier's life.

Minard's Liniment Cures Distemper.

An old railroad ticket issued in 1863 was presented to the conductor of a train which ran from New York to Harrisburg, Pa. The ticket called for a first class ride from Reading to Harrisburg. According to the story of the man who presented the ticket, it was purchased from a man living in Blair Hill, who was unable to go to that station. He sold his child tickets for the ticket and saved thirty-nine cents on his investment. The conductor examined this ticket carefully, accepted it, and forwarded it to the office of the general passenger agent.

Says Percy Pot,
"I now am not
As black as I've
been painted,
I know as much
Because Old Dutch
And I've become
acquainted."

MADE IN CANADA

British Bulldog American Mascot
The "Teddy Bear" has come and gone. From watch chains and fobs he has dangled so long, as in years gone by the little bear would. A more tenacious and pugnacious animal has now been chosen as a "mascot" by our friends across the 45th parallel. In a number of cities of the United States the "Teddy Bear" has been replaced by the "Irish Bull Dog," a faithful friend, but a fearless foe. Small "bulls" in gold, silver, glass or composition now ornament the fobs, watch chains or coat lapels of the street vendors. The "Irish Bull Dog" grim at the passers-by and reminds them again and again that "What he'll hold."

The Farmer

He is the Man Who Has the Final Say in the Feeding of the Nation.

I do not want to deal with this subject more than in a passing way, but I would like to point out, gentlemen, that after all, whatever you may do for agriculture, there must still be room for the farmer to sell his grain in a country like this of Canada. No great success, or permanent success, of course, can be reached without knowledge of the basic facts which the farmer himself might call the scientific side of agriculture. He who is happy in his task, can take a keen delight in it; or make a great success of it, must be able to link his efforts with the great forces of nature that contribute to the success that he otherwise could not have.

The farmer, after all, stands for the necessities. In the great household of nature, the farmer stands at the door of the bread room, and waits to each man his loaf. He has the final say in this thing. Hon. Martin Burrell, before the Ottawa Canadian Club,

GinPills
FOR THE KIDNEYS

are out of order. Make the doctor's prescription. Examine your urine. If it is a light straw color, and if it is slightly colored, reddish or deep orange—if the color is strong or unusual—call the doctor at once. This will cost 20 cents a box, with the absolute guarantee of satisfaction or money back. See boxes for \$2.50, or a free specimen if you write to:

**The Lives it is Costing**

For the past two months the British forces, fighting on a front of less than sixty miles, have lost on an average 1,200 men a day. What, then, are the daily losses of German troops on a front of about 1,000 miles along which actions are continuous? There can be nothing clearer than that the losses admitted by Germany, which amount to two and a half million men, are only about 60 per cent. of the actual total. No wonder the German people are "praying for peace" as one of their fire-eating journalists, Max Haidau, now admits.—Toronto Mail and Empire.

Target Practice on Mt. Cavalry

War respects places as little as persons is proved anew by the apparently trustworthy report from the Golgotha of Calvary, by the Turk. Years ago no few persons represented the railway from Jaffa to Jerusalem as a commercial intrusion on regions of sacred association; but what is to be said when the walls of the church of the Holy Sepulchre tremble with the concussion of high explosives?

When the Kaiser made his now famous pilgrimage in 1898, and left a statue of himself in the Bazaar of a Cretan town, the Turks of Otranto were not expected that after a few years in the "Reversed crusade" the alliance of Giaour and Moslem would give the Turks license for gun play and the treasured relics of the life of Christ on earth.

Fixing Food Prices in Russian Capital
The minister of the interior has drafted specific measures to combat the abnormal prices of foodstuffs in Petrograd. They will be carried into effect shortly.

The main object is to insure the conveyance of foodstuffs to the capital in such abundance as to obviate the necessity of compelling purchasers to await their turn to buy small quantities.

First War Fan—Well, what are the Russians doing?

Second War Fan—Well, they put the Czar in the box and shifted the Grand Duke to right field.

Mount Robson

We are asked to say after whom Mount Robson is named. No positive answer can be made to this, except that it was not named after the late Mr. Robson, the premier of this province. It bore the name long before Mr. Robson entered public life. The best information available, so Mr. Fleet Robertson tells us, is the result of a recent investigation to the effect that it was named after an employee of the old Northwest Company. We shall be very glad to hear from any reader who can throw any light upon the question.—Victoria Colonist.

Minard's Liniment Cures Gargle in Cows.

Among the passengers on a train on a one-track road in the middle west was a tailor from New York. Apparently the train stopped to take on water, and the conductor neglected to send back a flagman. An express came along, and before it could be stopped, bumped the rear end of the slow train. The passenger was hit from his seat and pitched forward into the seat ahead. His silk hat was jammed clear down over his ears. He picked himself up and settled back in his seat. No bones had been broken, but the man was deathly pale, straightened up, and said: "Well, they didn't get by us, anyway."

THE SECRET OF A GOOD COMPLEXION

Did it ever occur to you that there is a reason for your sallow complexion, plumpness, blackheads and other skin complaints? The secret lies in health, which is the result of a well balanced diet. Zinc-Buk is composed of stimulating and healing herbal essences, which penetrate the skin and enable it to expel the accumulated poisonous waste matter. A clear, healthy complexion is the folly of endeavoring to cover up the natural beauty of the skin.

The folly of endeavoring to cover up the natural beauty of the skin is the folly of endeavoring to cover up the natural beauty of the skin. The farmer, after all, stands for the necessities. In the great household of nature, the farmer stands at the door of the bread room, and waits to each man his loaf. He has the final say in this thing. Hon. Martin Burrell, before the Ottawa Canadian Club,

Revive the Jaded Condition—When every flag and the colors of business are flying high; when the whole nation is out on its toes, and the general depression, try Palmer's Vegetable Pills. They will regulate the action of a deranged stomach and a disordered liver, and make you feel like a new man. He has the final say in this thing. Hon. Martin Burrell, before the Ottawa Canadian Club.

Explained

"What little boy?" the Sunday school teacher persistently remarked "can tell me the difference between the 'quick' and the 'dead'?"

"I can, Miss Mary!" exclaimed a small boy named Tommy, excitedly wringing his hands. "The quick is all right, the dead is all wrong."

"All right, Tommy," responded the teacher. "You may tell the class."

"The 'quick,'" was the triumphant rejoinder of Tommy, "is then what hops out of the way of automobiles; then that don't is 'dead'."

Explained

Minard's Liniment Co., Limited

Gentlemen.—In July, 1915, I was thrown from a road machine, injuring my hip and back badly and was able to stand on my feet for 14 months. In Sept., 1916, Mr. Wm. O'Farrell Lachute urged me to try MINARD'S LINIMENT, which I did with the most satisfactory results and today I am as well as ever in my life.

Yours sincerely,

MATTHEW N. BAINES
mark.

BUSY BIDEFORD

We regret to announce that Mr. A. Rammes has been taken sick with the Scarlet fever, but as the case is not serious we hope to see him around again shortly.

Mr. A. E. Richardson arrived from Kamloops, B. C. with two cars of work horses.

For the first time in six months Bideford has had a visit from a R. N. W. M. P. constable, which naturally brings up the question "Does anybody know where the nearest Provincial police is stationed?" not that we have required one before this time, but we would like to know who and where to notify in case of necessity.

(At Coronation, Edt.)

The dance given in the school house, for raising funds for a piano, held on Friday last, was a great success, and much credit is coming to Mr. Kallman for the way it was carried out.

We would like to know who is responsible for the rumor that the Government gangs are at work installing rural phones.

Mr. John McLeod, local Ford agent, has been busy this week getting his cars in good shape before delivering them to their owners. Not too bad at all, selling a carload of autos in about less than a month from their arrival, and another carload on order. You better get your name in on this carload.

Mrs. Alf. Wright arrived here Saturday, from Saskatoon, where she had successfully undergone an operation. We trust her health will continue to improve, as the result.

Suggest a subscription to the "Monitor News," to your friends so they will know what is what in Bideford.

CREAM IS MONEY

Butterfat is the most profitable thing your farm produces. It is worth from \$600 to \$700 per ton.

You would not think of skimming your cream and then putting a large part of it back into the milk to be fed to your calves and hogs.

A De Laval Separator will remove ALL the Butterfat from your milk, and give you \$10 to \$20 more profit each year for every cow you milk. It will also give fresh, warm, sweet skim milk, the kind to feed your calves and hogs.

Tell us that you would like to see and try a New De Laval and we will bring one out to your farm.

You need not buy it unless you decide, after using it for several days, that its purchase will be a profitable investment for you.

Target Practice on Mt. Calvary

War respects places as little as persons is proved anew by the apparently trustworthy report from the Holy Land of a target practice on Golgotha or Calvary by the Turks.

Years ago not a few persons re-

sented the railway from Jaffa to Jeru-

salem as a commercial intrusion on

religious and sacred associations be-

cause of the fact that the walls of

the Church of the Holy Sepulchre

tremble with the concussion of high explosives.

When the Kaiser made his now famous pronouncement and left a statue of himself in the likeness of a Crusader on the Mount of Olives, it was not expected that after a few years in the "Reversed crusade" the Allies of France and Russia would give the Turks license for gun play amid the treasured relics of the life of Christ on earth.

Firing Food Price in Russian Capital

The arrival of the Berliner has drafted specific measures to combat the abnormal prices of foodstuffs in Petrograd. They will be carried into effect shortly.

The main object is to insure the conveyance of foodstuffs to the capital in such abundance as to obviate the necessity of compelling purchasers to await their turn to buy small quantities.

First War Fan—Well, what are the Russians doing?

Second War Fan—Well, they put the Czar in the box and shifted the Grand Duke to right field.

Mount Robson
We are asked to say after whom Mount Robson is named. No positive answer can be made to the question except that it was not named after the late John Robson, at one time premier of this province. It bore the name long before Mr. Robson entered public life. The best information available is that Mr. F. G. Robertson tells us, as the result of his investigation, is to the effect that it was named after an employee of the old Northwest Company. We are not able to hear from any readers who can throw light upon the question.—Victoria Colonist.

Minard's Liniment Cures Gout in Cows.

Among the passengers on a train on a one-track road in the middle west was a talkative jeweller drummer. Presently the train stopped to take on water, and the conductor neglected to stop the express. An express came along, and before it could be stopped, bumped the rear end of the first train. The drummer was lifted from his seat and pitched head first into the air above him. His hat had just cleared down over his head. He picked himself up and settled back in his seat. No bones had been broken. He drew a long breath, straightened up, and said: "Well, they didn't get us, anyway."

THE SECRET OF A GOOD COMPLEXION

Did it ever occur to you that there is a reason for your sallow complexion, pimples, blackheads and other skin blemishes? Your skin, when healthy, has to excrete 17 per cent of the waste products of the body. When it becomes clogged, the poisonous waste is imprisoned and skin troubles follow.

To rid yourself of these blemishes the skin must be cured of its sluggishness. This is just what Zam-Buk does. Zam-Buk is composed of the group known as disorders of the skin, and is great for increased nervousness and excitability. Each of these complaints exists because the nerves are not getting a proper nourishment from the blood. The reason why Dr. Williams' Pink Pills have cured nervous disorders is that the rich, red blood upon which the nerves depend for proper tone. It is thus seen that Dr. Williams' Pink Pills cure nervous disorders because they help to keep the blood pure, and while they are doing this they strengthen and fortify the whole system against disease. Among the many who have found relief from pain through this great medicine is Mrs. S. M. Cuthar, of Barrie, Ontario, who says: "Some years ago I was seized with a great pain in my right leg, which I could not rest, lay down, or move without causing me pain. The doctor said the trouble was rheumatism of the sciatic nerve. Liniments were used until they actually took the skin off, and still the pain continued. Then I applied Zam-Buk to the limb, and it had to be treated in the same way. I lay that condition for three years with my whole nervous system so badly affected that I could not walk. I screamed if any one walked across the floor. Then my throat became partially paralyzed and I could scarcely speak. During this time I had been attending by day and working at night, which did not in their power, but each said I would never be able to walk again. Then my father decided to get me Dr. Williams' Pink Pills. Before I had used them long I felt them and made herself comfortable. Just before the train started the guard passed along, and, noticing the woman and the basket, said gruffly: 'Are you first class, my good woman?'

"Sure I am, and thank you," she replied with a smile. "And how do you feel yourself?"

On Sale Everywhere.—There may

be country merchants who do not

know Dr. Thomas' Electric Oil,

though they are few and far between,

and the oil is just as good. There is no

thing so good as a liniment or an

internal medicine in certain cases;

Take no other. The demand for it

shows that this is the only popular oil.

An old Irish countrywoman, going to Dublin to trade, stopped in front of first class garage and saw a woman in the side entrance.

"Are you first class, my good woman?"

"Sure I am, and thank you," she re-

plied with a smile. "And how do you

feel yourself?"

Best Liniment of All Destroys Every Pain But Never Burns

"How thankful we are to get hold of such a wonderful household remedy as Nervilene," writes Mrs. P. L. Ladouceur, from her home near Westlock, Alberta. "In this faraway section, far away from a doctor or druggist, every family needs a good supply of liniment. Nervilene is the best liniment I have ever had."

It is a salve in a screw-top jar, and made herself comfortable. Just before the train started the guard passed along, and, noticing the woman and the basket, said gruffly: "Are you first class, my good woman?"

"Sure I am, and thank you," she re-

plied with a smile. "And how do you

feel yourself?"

target practice on Mt. Calvary

War respects places as little as persons is proved anew by the apparently trustworthy report from the Holy Land of a target practice on Golgotha or Calvary by the Turks.

Years ago not a few persons re-

sented the railway from Jaffa to Jeru-

salem as a commercial intrusion on

religious and sacred associations be-

cause of the fact that the walls of

the Church of the Holy Sepulchre

tremble with the concussion of high explosives.

When the Kaiser made his now

famous pronouncement and left a

statue of himself in the likeness of a

Crusader on the Mount of Olives, it

was not expected that after a few

years in the "Reversed crusade"

the Allies of France and Russia would

give the Turks license for gun play

amid the treasured relics of the life

of Christ on earth.

First War Fan—Well, what are the

Russians doing?

Second War Fan—Well, they put

the Czar in the box and shifted the

Grand Duke to right field.

Third War Fan—Well, they put

the Czar in the box and shifted the

Grand Duke to right field.

Fourth War Fan—Well, they put

the Czar in the box and shifted the

Grand Duke to right field.

ing Hereabouts

Geo. Wetzel returned from
southern California, last week.

Henry Horst, Jr., formerly of
Walla Walla, Wash., has accept-
ed a position with the Beebe
Hardware Co.

Birth—On Tuesday, April 24,
to Steve and Mrs. Panoff, a son.

The regular meeting of the
Literary Society will be held in
the Orange Hall on Tuesday
evening, May 1st. Moving Pictures
will also be shown. The
members of the Society will be
admitted free. Adults 25c. 10c
for Children.

Dr. Mecklenburg, the Grad-
uate Optician, Williamson Bldg
Edmonton, will be in Monitor
Tuesday May 8th. Consort on
May 9th.

Spring appears to be taking
its own time in showing up, this
year, but this does not deter
the 'back lot' enthusiasts in
town, from going ahead with
the planting of their gardens.

This may be spring alright
but how are we going to know
it when we have to beat the
carpets and crank the heater,
on the same day.

Jack Anchor's team ran away
on Wednesday, in town, and
smashed up two buggies that
happened to be in their path.

They started from Hayes and
circled north around to Main
St. where they headed for the
big windows in Beebe's store.

The hitching posts in front of
McGirr's got tangled up with
the team and wagon and so put
a stop to further damage.

The local officers of the Pa-
triotic Society, in looking over
the books, find that some sub-
scribers to this important Fund
who signed cards, a year ago,
are in arrears. Will all such
kindly call at the Bank and
PAY. Money is needed Now.

The Star Cafe has installed a
Soda Fountain, and they will
sell all kinds of Iced drinks, Ice
Cream, etc.

Rev. and Mrs. Cantlon, of
Kirriemuir, were visitors at the
English home, during the week.

Gregerson School will reopen
on Wednesday, May 2nd. Miss
Brushett will be in charge.

Plow Shares For Your Plow

: FORD : FORD :

There are only four of the second carload left. Better place your order now and have your car when you want it. Delay in this matter may mean that you will have to wait for delivery and possibly pay more as well.

Ford Touring, fully equiped with electric lights, crowned fenders. A comfortable roomy car for five persons. \$550.00, delivered.

The 2 passenger Roadster at \$530.00

MONITOR GARAGE

The Village Council intends
making an example of the next
bunch of drunks who create any
disturbance on the streets.

It has been a disgrace, the
two Saturdays, the way these
men have carried on, and it is
about time this sort of a public
nuisance was made away with,
and the offenders punished.
